

Clinical Aspects of Liver Diseases

22 Acute viral hepatitis

		Page:			Page:
1	<i>History of acute viral hepatitis</i>	413	4.8.3	Perinatal infection and antenatal care	427
2	<i>Morphology and aetiopathogenetic range</i>	414	4.8.4	Close physical contact	428
2.1	Histomorphological changes	415	4.9	Hepatitis B and medical personnel	428
2.2	Sonographic morphology	416	4.9.1	Medical personnel	428
2.3	<i>Specific courses of disease</i>	416	4.9.2	Hepatitis B and the dialysis unit	429
2.3.1	Minimal hepatitis	416	4.9.3	Hepatitis B and dentistry	429
2.3.2	Drug-induced hepatitis	416	4.9.4	Insurance questions	429
2.3.3	Cholestatic course of disease	416	4.10	Stages of disease	430
2.3.4	Anicteric course of disease	416	4.11	Extrahepatic manifestations	431
2.3.5	Fulminant course of disease	416	4.12	Specific clinical courses of disease	431
2.3.6	Giant-cell hepatitis	417	4.12.1	Subclinical course	431
2.4	<i>Aetiopathogenetic diversity</i>	417	4.12.2	Anicteric course	431
3	<i>Acute viral hepatitis A</i>	418	4.12.3	Protracted course	432
3.1	Definition	418	4.12.4	Recurrent course	432
3.2	Pathogen	418	4.12.5	Cholestatic course	432
3.2.1	Inactivation	418	4.12.6	Fulminant course	432
3.2.2	Detection	418	4.12.7	Subacute course	433
3.2.3	Replication	419	4.12.8	Chronic course	433
3.3	Transmission	419	4.13	Hepatitis B and pregnancy	433
3.4	Epidemiology	419	4.14	Hepatitis B and hepatocellular carcinoma	433
3.4.1	Frequency of disease	419	4.15	Prophylaxis	433
3.4.2	Obligation for notification	420	4.15.1	General hygiene measures	434
3.5	Pathogenesis	420	4.15.2	Passive immunoprophylactic measures	434
3.6	Serological diagnostics	420	4.15.3	Simultaneous vaccination	434
3.7	Stages of disease	420	4.15.4	Active protective vaccination	434
3.8	Extrahepatic manifestations	421	4.16	Therapy	436
3.9	Clinical courses of disease	421	4.16.1	Aims of treatment	436
3.10	Formation of granulomas	422	4.16.2	Methods of treatment	436
3.11	Prophylactic measures	422	4.17	Healing of hepatitis B	437
3.11.1	Passive immunization	422	4.17.1	Morphological healing process	437
3.11.2	Active vaccination	422	4.17.2	Biochemical healing process	438
3.11.3	Simultaneous vaccination	422	5	<i>Acute viral hepatitis C</i>	439
3.12	Therapy	422	5.1	Definition	439
4	<i>Acute viral hepatitis B</i>	423	5.2	Pathogen	439
4.1	Definition	423	5.2.1	Genotypes	439
4.2	Pathogen	423	5.2.2	Inactivation	440
4.2.1	Inactivation	423	5.3	Serological diagnostics	440
4.2.2	Pathogenesis	423	5.3.1	Anti-HCV test	440
4.3	Antigens and antibodies	423	5.3.2	RT-PCR test	440
4.4	HBV variants	425	5.4	Epidemiology	440
4.5	Specific serological courses of disease	425	5.5	Transmission	441
4.6	Chronic HBsAg carriers	425	5.6	Histological findings	442
4.7	Epidemiology	426	5.7	Stages of disease	442
4.7.1	Obligation for notification	426	5.8	Extrahepatic manifestations	443
4.8	Transmission	426	5.9	Hepatitis C and hepatocellular carcinoma	444
4.8.1	Parenteral infection	426	5.10	Prophylaxis and therapy	444
4.8.2	Sexual infection	427	6	<i>Acute viral hepatitis D</i>	445
