DE ARTE LOGISTICA

Translation and notes by William Francis Hawkins

Small additions and modifications to the translation by Hawkins [in brackets], as well as the addition of notes 9, 13, 37, 38, 57, 73 and 77, have been made by Enrique A. González-Velasco. Notes 5, 6, 20 and 24 are by Garry J. Tee, Hawkins’ thesis supervisor. Note that the present typesetting has been formatted to be as close as possible to the style of the original Latin publication, which Hawkins could not achieve in 1982 using a typewriter.
