Foot and ankle

7.1 Examination of the foot and ankle – 417
7.1.1 Infants – 417
7.1.2 Children and adolescents – 418
7.1.2.1 Examination protocol for the upper ankle and foot in children and adolescents – 418

7.2 Radiographic techniques for the foot and ankle – 423

7.3 Congenital clubfoot – 425

7.4 Congenital flatfoot (vertical talus) – 441

7.5 Other congenital anomalies of the foot – 445
7.5.1 Accessory ossification centers, talus partitus – 445
7.5.2 Tarsal coalition – 448
7.5.3 Congenital ball-and-socket ankle joint – 450
7.5.4 Polydactyly – 451
7.5.5 Syndactyly – 453
7.5.6 Split foot (lobster claw foot) – 453
7.5.7 Congenital hallux varus – 454
7.5.8 Macrodactyly – 455
7.5.9 Brachymetatarsia – 455
7.5.10 Accessory muscles – 456
7.5.11 Foot abnormalities with longitudinal malformations – 456
7.5.12 Foot abnormalities in systemic disorders – 458
7.5.12.1 Apert syndrome (Acrocephalosyndactyly) – 458
7.5.12.2 Foot abnormalities in various syndromes – 458

7.6 Do skewfeet stop Cinderella from turning into a princess? or: Should one treat metatarsus adductus? – 460
7.7 Flatfoot Indians – which ones must be treated so that they can later become chiefs? – or: How do we distinguish between flat valgus foot and flexible flatfoot? – 463

7.7.1 Physiological flat valgus foot – 464
7.7.2 Flexible flatfoot – 465

7.8 Juvenile hallux valgus – 474

7.9 Does one have to walk one’s feet off before the cause of foot pain can be established? – or: Osteochondroses and other painful problems of the feet – 480

7.9.1 Köhler’s bone disease (of the tarsal navicular) – 480
7.9.2 Freiberg’s disease (infarction) – 481
7.9.3 Other rare forms of osteonecrosis on the forefoot – 482
7.9.4 Osteochondritis dissecans of the talus – 482
7.9.5 Calcaneal apophysitis (Sever’s disease) – 484
7.9.6 Other types of heel pain – 484
7.9.7 Fatigue fractures – 485

7.10 Neuromuscular disorders of the ankle and foot – 486

R. Brunner

7.10.1 Primarily spastic paralyses – 487
7.10.1.1 Functional disorders – 488
7.10.1.2 Structural deformities – 492
7.10.2 Primarily flaccid paralyses – 495
7.10.2.1 Functional disorders – 495
7.10.2.2 Structural deformities – 497

7.11 Ankle and foot injuries – 499

C. Hasler

7.11.1 Fractures of the distal tibia – 499
7.11.2 Syndesmotic disruptions and fibular epiphyseal separations – 503
7.11.3 Fibulotalar ligament lesions – 503
7.11.4 Fractures of the foot – 504

7.12 Infections of the foot and ankle – 507

7.13 Tumors of the foot and ankle – 508

7.14 Differential diagnosis of foot pain – 513
