Chapter 2

Dorsal Cisterns and Fissures, Anterior Segment
(Figs. 6 to 45)

Fig. 6. Relationships of the Arachnoidea to the Falx and the cranial base
In the front diagonal illustration, the arachnoidea is lifted from the basal dura, as can be done during operations without having to open the CSF spaces
Dorsal cisterns
+ fissures

Anterior segment

Relationship to the cranial base

Sin. front. (Septum)
Sin. sphen. (Septum)
