SECTION 2: REINFORCEMENTS FOR THERMOSETS

The manufacturers reference, plus outline use, properties and supply details for each material grade grouped as generically as possible, are tabulated alphabetically by manufacturer, and employ a digital code, with respective pagination shown alongside. A key to the symbols employed in the tabulations is provided on page 51. All enquiries for additional property and other data, plus quotations for supply, should be addressed as appropriate, using Part One: Directory, of this Databook.
