**European Mechanics Colloquia 1976**

Euromech Colloquia are informal conferences on specialized research topics, and participation is restricted to a small number of European research workers actively engaged in the field. Overall responsibility for Euromech Colloquia is in the hands of the European Mechanics Committee, and the organization of each Colloquium, including the selection of participants for invitation, is entrusted to a Chairman for that Colloquium. People who are interested in taking part in one of the Colloquia listed below should write to the appropriate Chairman. Further information about Euromech Colloquia generally may be obtained from either the Secretary of the European Mechanics Committee, Prof. H. H. Fernholz (Institut für Thermo- u. Fluidodynamik, Technische Universität, D 1 Berlin 12, Strasse des 17 Juni 135, Germany) or the Chairman, Prof. G. K. Batchelor (Department of Applied Mathematics and Theoretical Physics, University of Cambridge, Silver Street, Cambridge CB3 9EW, England).
