Doctoral Dissertations in Pastoral Psychology
June 1, 1964 to May 31, 1965

During the year 1964–1965 twenty doctoral dissertations (Th.D. and Ph.D.) were completed in pastoral psychology, and eleven in related fields, according to reports from librarians of accredited theological seminaries. Eleven schools are among the contributors to the thirty-four titles listed below.

A statistical summary of dissertations listed in the Annual Directory issues from 1960 through 1965, shows 109 titles in pastoral psychology and 43 titles in related fields, or approximately 22 per year in the former category and 9 per year in the latter. 62% of the dissertations in pastoral psychology have come from three schools: Boston University School of Theology, The Divinity School of the University of Chicago, and Harvard Divinity School. Contributions from the School of Theology at Claremont, The Southern Baptist Theological Seminary, and Union Theological Seminary in New York, bring the number from six schools to 82% of the total. The remaining 18% come from eleven other schools.

Only completed dissertations are listed under the subject headings which follow:

**Historical**
NONE.

**Clinical Pastoral Education**

Young, Lewis C. "The Relation Between Self-Acceptance and The Acceptance of Others: With Particular Reference to Clinical Pastoral Training." (Boston University School of Theology.)
