Acknowledgement 2006

“Polar Biology” was founded in 1982. Since then the community of polar biologists has grown considerably. This is reflected in the increasing volume of the journal. In the early years the majority of the contributors came from a limited number of English speaking laboratories. Nowadays scientists from all over the world are engaged in Antarctic studies. In the 1990s, the opening up of the Arctic to scientists from outside have greatly widened the authorship of “Polar Biology”.

While maintaining high scientific standards of a leading international journal the editors feel obliged to help promising scientists to communicate their findings and to become internationally recognized. Many reviewers provide great input into the improvement of manuscripts.

We wish to thank all reviewers listed below for providing strict quality control for “Polar Biology” and for making the peer review system an instrument of mutual assistance in broadening the scientific community of polar biologists.

G and I Hempel (Kiel Office)
R Gradinger (Fairbanks Office)

The following list of referees covers volume 29 of 2006 (number of reviews in brackets if more than one):

Adams B, US
Ainley D, US
Aislabie J (2), New Zealand
Alvarez M, UK
Antolin MF, US
Arnould J, Australia
Arntz W, Germany
Atkinson A (2), UK
Bale J, UK
Baluschkin AV, Russia
Bamber R, UK
Barbosa A, Spain
Barbraud CB, France
Barnes DKA (2), UK
Bathmann U, Germany
Becker PH, Germany
Bester M, South Africa
Boelter M, Germany
Boersma PD, US
Bost C, France
Boucher G, France
Boveng P, US
Bowman J (2), Australia
Bradshaw CJA, Australia
Brandt A (2), Germany
Brey T, Germany
Broady P, New Zealand
Brochman C, Norway
Brower S, South Africa
Broyer C de, Belgium
Bruyn Pde, South Africa
Buck KR, US
Burns JM, US
Button DK, US
Calder DR, Canada
Calvo J, Argentina
Cameron M, US
Campbell J, New Zealand
Casanova JP, France
Casaux R, Argentina
Castellini MA (2), US
Cattaneo-Vietti R, Italy
Cherel Y (3), France
Chown S, South Africa
